On behalf of our board and dedicated staff, thank you for believing in our work and supporting our goals. Thanks to you, we have increased our ability to not only serve, but serve with dignity and succeed. It is our first priority and duty to do this work as parents, caregivers, and members of the African Diaspora community. Together we can all invite prosperity into our homes and environment.

Best wishes,

Hamdi Abdulle, Executive Director

Housing and community stabilization is our primary focus - our community deserves safe, stable, and affordable housing. We focus on preventing eviction by leveraging our connections with over 90 landlords and property managers in King County. If we are not able to mitigate solutions ourselves, we work with agencies that provide legal support services such as King County Housing Justice Project and the Tenant Law Center.

Providing culturally relevant case management, workshops, and training is an integral part of the work we do to support our community. We have a hotline for community members in need of housing assistance or any other basic supplies and support.

We provide culturally relevant, healthy food to our community, especially during Ramadan, as well throughout the rest of the year to support food access. We also distribute school and household supplies, in addition to clothing, furniture, and other essential needs.
Our Positive Family Connections and Positive Senior Connections programs engage the whole family, including elders. We focus on youth development, healthy seniors, and strong parent-child relationships. Through our relationships with Highline School District, we help increase parent engagement in the education process. We also serve as a cultural and linguistic bridge between school and community.

A large part of our education work centers around helping newly immigrated families enroll in the public school system and helping them understand and acclimate to new rules and social norms.

We also host an array of programs aimed at strengthening student learning and success, which includes youth sports, urban farming, socio-emotional learning, leadership, and advocacy.

In collaboration with African-led organizations and community leaders, ACHD works to identify and dismantle barriers to economic prosperity for the African Diaspora community.

ACHD also operates as a resource for African-owned small businesses in South King County, providing assistance to mitigate the negative effects of COVID-19.
